EXPERIENCE

Web Developer · The Benchmarking Network (NHS), London Mar 2024 – Sep 2025

- Built and maintained front-end applications for the National Audit of Care at the End of Life (NACEL) in Vue/Nuxt, Angular, TypeScript and Tailwind, used by 300+ NHS organisations.
- Built and extended the Data Improvement Tool, letting healthcare providers analyse audit results and act on them; data visualisation in Highcharts.
- Optimised the codebase for faster load times and improved accessibility across the product.
- Reviewed code and mentored junior team members; contributed to coding standards, responsive design and unit tests.
- Worked in an Agile team with back-end developers and project coordinators, turning complex healthcare requirements into clear interfaces.

Freelance Web Developer · London Jul 2023 – Mar 2024

- Built custom Shopify stores and themes with Liquid and JavaScript; gained Shopify certifications.
- Built full-stack applications with Express, Django (Python) and GraphQL; contributed to open source.

Mid-Weight Developer · Papaya Dash, London Jun 2022 – Oct 2022

- Designed features in Figma and built them in Next.js and TypeScript, with React Query and Redux for state and data.
- Managed CI/CD through Vercel and implemented feature flags; tracked bugs and performance across environments with LogRocket.
- Planned and prioritised sprints in Linear with the senior developer; reviewed and merged pull requests on GitHub.
- Presented new features to clients and the team.

Full-Stack Developer · SOL Blitz, Remote Mar 2022 – Apr 2022

- Designed and built the site in Next.js, TypeScript and Chakra UI, with Sanity as a headless CMS so the client could edit content directly.
- Scored 92 / 95 / 95 for SEO, Accessibility and Best Practices on Google PageSpeed Insights.

Full-Stack Developer · SpaceBums, Remote Nov 2021 – Apr 2022

- Led the design system and maintained the component library.
- Built product features with React, TypeScript, Sanity and Zustand; read and wrote live Solana blockchain data with Web3.js.
- Supported sprint planning in Jira and kept documentation and the roadmap up to date in Notion.

Junior Web Developer · Bally's Interactive, Hybrid Jun 2021 – Jan 2022

- Built reusable components with React and Material UI, with state managed in Redux.
- Integrated APIs, ran cross-browser testing in BrowserStack, and reviewed and merged pull requests.

- Built Shopify stores with Liquid, HTML, CSS and JavaScript, from Figma wireframes to launch, and ran A/B tests to lift conversion.
